

HARD FIGHTING SOUTH OF IMUS

Reconnoitering Party Struck the Enemy.

GEN. WHEATON LENDS A HAND IN DISPERSING REBELS.

Report of Wholesale Prostration of Troops in Philippines Not Confirmed in Washington—Officers on Duty Raise Their Voices in Denunciation—Say That Conditions Are All That Could Be Expected in an Army Engaged in Campaign—Otis Informs Department That All Volunteer Organizations Desire to Be Mustered Out.

Washington, June 19.—[Special].—Gen. Otis informs the war department that all volunteer organizations in the Philippines desire to be mustered out at San Francisco.

The Sixth infantry which arrived at Manila this morning on the transport Sherman, leaves immediately to relieve the Californians, who depart for San Francisco as soon as they can be collected.

The transport Indiana with 134 officers and men left for San Francisco yesterday.

Prostration Report Not Confirmed. Washington, June 19.—The report of the wholesale prostration of the troops in the Philippines cannot be confirmed at headquarters here.

The officers on duty there say that the condition of the troops is as satisfactory as could be expected in any army engaged in a campaign.

HARD FIGHTING SOUTH OF IMUS

Reconnoitering Party Suddenly Struck Enemy in Large Force.

Manila, June 19.—[Special].—There is hard fighting south of Imus today. This morning Gen. Wheaton sent a reconnoitering party to examine that territory.

All went well until the Americans reached Perez Dasmarinas, where they suddenly struck the enemy in a large force.

It was a sharp encounter, after which the party fell back slowly on Imus carrying on a running fight with the insurgents over five miles of territory.

The loss on the American side was five killed and twenty wounded.

When Gen. Wheaton learned of the engagement, he personally took two battalions and some artillery, and chased the rebels back towards Perez Dasmarinas, inflicting severe losses.

Washington, June 19.—"You may say that the slightest intimation from Gen. Otis that he wants more troops in addition to those he now has with him and those which are to be sent to him under the recent order, will be followed by a prompt call for volunteers. There will be no further parleying with Aguinaldo and his followers, and no let-up in the aggressive campaign which Gen. Otis is conducting."

This was the pithy comment of one of the most influential members of the cabinet when informed that the entire nation, as evidenced by declarations of governors in response to requests for expressions of opinion, is practically united in its willingness to support President McKinley, should he deem the conditions in the Philippines necessitate a call for volunteers.

"It is the intention of the president," continued the cabinet official, "to use every means in his power to put down the rebellion in the Philippines as promptly as possible. Just before the president went away the question was frequently discussed at cabinet meetings, and there was no conflict of opinion as to the policy to be pursued in the Philippines. The president is determined to restore peace throughout the islands if it takes ten times as many troops as we now have there. Up to the present time there has not been a word or a suggestion from Gen. Otis and the ranking officers of his command indicating that the force there is insufficient.

"The president stands ready to call for as many volunteers as may be necessary to subdue the Filipinos, and there is every reason to believe that he can secure without delay all the volunteers he may call for.

"The official and unofficial reports of the engagements in the Philippines," continued the cabinet official, "have agreed in the statement that in every encounter the American forces have been victorious. With victory upon victory reported from headquarters it was fair to assume that the enemy would eventually become weary of being thrashed, and finally recognize the power and determination of the American forces. Under the circumstances there has thus far been nothing to justify the president in calling for more troops."

Advocates of a larger army in the Philippines hope that the president will quickly take measures to raise the necessary troops. It is admitted that Gen. Otis cannot hope to do much more than hold his present lines during the

rainy season, but it is urged that he ought to have enough men under his command to have his forces thoroughly reorganized and to be ready to begin aggressive action all along the line as soon as the rainy season closes.

It is believed by officials of the war department that it would be possible to enlist 35,000 men without taking much if any absolutely raw material. Certainly the regiments could be offered entirely by the pick of the officers who served as volunteers in the Spanish war, and it is believed that most of the enlisted men could be obtained from those who served in the volunteer regiments. Many of these men would be just as efficient as regulars, and it is argued that if they could be got together soon and put into camps of instruction until transportation could be provided they would be in condition to take the field at once on arriving at Manila.

Gen. Otis, it is acknowledged, would undoubtedly prefer to have his force made up as largely as possible of regulars. It would be possible for the war department to send him several more regiments of regular troops if their places in the United States and in Porto Rico could be taken by volunteers.

With more than double the force which he estimated he would need, officials here say he ought to be able to bring the campaign to a close in a comparatively short time and to occupy all the important points of the island with such strong garrisons as to make it apparent to the natives that the United States proposes to maintain order and put down rebellion with a strong hand.

FORECAST OF WEATHER

Chicago, June 19.—[Special].—Forecast for Wisconsin: Thunder storms tonight; Tuesday.

SHE WANTS MORE OF ALASKA.

New York, June 19.—A special dispatch to the Journal from Washington says:

"Canada has served notice on Great Britain that she must choose between the United States and her North American dominion in the settlement of the Alaskan boundary question. The highest authority is given for saying that this ultimatum submitted to Great Britain has delayed the negotiations between Ambassador Choate and Lord Salisbury on the provisional line of the modus vivendi. This position of Canada is known here today officially. The official to whom it is known feels authorized in saying that there are only two ways out of the difficulty—first, that Canada will voluntarily recede from her demands for a Pacific water port; or, second, that the United States shall surrender the principle laid down by Secretary Hay in his tentative boundary line that America will not grant, temporarily or otherwise, any port facilities to the Canadians.

"It is asserted here on authority that Great Britain has been forced to yield to Canada and that the United States and Great Britain are wider apart today in the controversy than at any time since the adjournment of the joint high commission. The news is of the most unexpected character."

AN IDEAL SABBATH; EXCELLENT SERMONS

REV. KEMPTON'S THEME WAS
"THE REAL LIFE."

In the Evening a Picture and Song Service Was Held—Rev. A. G. Wilson Preached to a Large Congregation, the Subject Being "The Folly of Worry."

Mr. Kempton's subject was "The Ideal Life." His text was in Acts 15-22. These are the words of God, concerning one of his own chosen ones in the past. We may have thought many times that we have found the ideal character, but we always find some fault somewhere. The text is a definition of an ideal character. Notice first the purpose of an ideal life. It is to do God's will in all things. The greatest characters of the world have been those whose purpose was to do God's will. This purpose has been the rudder that has guided them clear across the stormy waters of life. It has been their daily food.

The ideal character has the best of companions; they are those who will of God. It is doing God's will that gives us the best of relatives. The ideal character has a different language from those of the world. Their language tells those about them what they are. The education of the ideal life is to learn to do God's will. If it is our purpose to do His will, God will teach us how. The greatest enjoyment of life is to know how to do God's will. If we learn to do God's will it will give us joy and happiness that the world knows nothing of.

The ideal life receives its great reward not only in this life, but will give us eternal joy and happiness in the world to come. May God help us to make this, the doing of God's will, the one great object of our life.

In the evening there was a beautiful picture and song service. Several old hymns were thrown upon the canvases and sang by the choir and congregation and then beautiful pictures were shown that illustrated the different parts of the hymn, while Miss Anderson sang the lines illustrated.

It was a unique service and was one not only interesting and entertaining, but very instructive.

All Souls Church.

At All Souls church Rev. A. G. Wilson preached to a large congregation on "The Folly of Worry." He said in part: Forethought and intelligent care to meet the exigencies of life are wise and necessary, but worry is cowardly. Worry is a nightmare in the day time to carry an insane dreamer into the hell of his own imagination. Often a habit of mind, a tendency of human nature. It is unfortunate to be born with blue goggles in a world of golden sunshine. O the difference in the quality of stuff of which humanity is made! There are men of straw who flame up and blow away with the first breeze. Rose geranium men who bloom only in a given temperature. Pretty men who change their shape at pleasure and carry the impress of the last hand that touched them. Iron men who take their stand and prove their staying qualities, and like mountains are at the same spot when the storm has passed away. The best thing in the world on the material side is a cool, clear head—the most useful piece of furniture in the house. Whoever has that sort of a head is powerful anywhere.

It is a philosophical fact that thought is a controlling force over our lives. Hopeful thoughts tend to success. Despondent thoughts tend to failure. Worry is a power in the direction of what it fears. It helps on the very thought it would avoid. We are likely to get what we fear; towards the first, and ought to.

We trouble our burdens. First we carry them in anticipation, and then in fact, and again we carry them in memory.

Let us go out of the silly business of worrying! Build your house on the sunny slopes of the world. Live by the day. We are all equal as to the time we may control. Nobody can accumulate a surplus. It comes to all a moment at a time. Tomorrow is a delusion. There is no tomorrow. When it comes it will be this morning. Both our joys and burdens are for today. And then I know there is divine help. We are related to the Eternal One. Why should we fear? Nothing is dangerous in the universe but sin. There is a loving and forgiving Father.

"Build a little fence of trust
Around today;
Fill the space with living deeds,
And therein stay;
Look out over the sheltering bars
Upon tomorrow;
God will help thee hear what comes
Of joy or sorrow."

Mr. Wilson announced that next Sunday would close the season, and the vacation would continue through July and August. He urged all to be present at the closing service next Sunday.

COMMENCEMENT AT LINE CITY COLLEGE

JOHN V. NORCROSS TO DELIVER ORATION AT BANQUET.

Speaker is a Son of Capt. and Mrs. Pliny Norcross of Janesville—Edmund Enright of This City One of the Graduates—Class Numbers Thirty-Two.

The Beloit college commencement exercises began yesterday morning with the annual missionary address by the Rev. Judson T. Smith, of Milwaukee, and at half past 4 o'clock President Edward D. Eaton gave the baccalaureate sermon. His text was from Mark 4:41: "What Manner of Man is This."

At the meeting and banquet of the alumni, John V. Norcross, formerly of this city, but now of Chicago, will deliver the oration. Mr. Norcross is a son of Capt. and Mrs. Pliny Norcross, and a graduate of that institution of learning. Horace S. Fiske will deliver the poem. Edmund Enright, of this city, is one of the members of the class and graduates with honors.

The graduating class numbers thirty-two, as follows:

Edwin P. Adams, Chicago, Ill.; Marcus F. Brown, Beloit; Charles H. Burdick, Oconomowoc; Robert W. Childs, Hinsdale, Ill.; John J. Cook, Waukesha; Harry I. DeBerard, Fairfax, Ia.; Allen B. Eaton, Beloit; Helen B. Edwards, Clinton; Edmund Enright, Janesville; Fritz Hagons, Elgin, Ill.; Theresa M. Hanley, Beloit; John R. Houlston, Chicago, Ill.; Charlotte Ingersoll, Beloit; Mary A. Knight, Chicago, Ill.; George F. Kentzel, Milwaukee; Herbert N. Leete, Sparta, Wis.; Rolfe L. Lyman, Pierre, S. D.; Will H. McMaster, Sioux City, Ia.; Cora B. Miller, Toulon, Ill.; Katherine J. Mills, Beloit; Mabel Nichols, Beloit; Mary C. Nye, Superior, Wis.; Clara H. Paley, Beloit; Curtis Reeve, College Springs, Ia.; Frank H. Reid, Argyle, Ill.; Genevieve Reiller, Beloit; Wilfrid A. Rowell, Mondovi; William Smith Sayer, Bartlett, Ill.; Sarah I. Stahl, Gaiens, Ill.; Lillian Wherry, River Forest, Ill.; Elizabeth B. Whitney, Beloit; Elizabeth E. Wilson, Burlington.

President Eaton in his baccalaureate sermon spoke in part as follows:

"The whole earthly career of Jesus was a progressive manifestation of Himself to His generation, and through them to all mankind. As a young teacher He astonished His listeners by His confidence, not so much in Himself as in the truth which He dealt with as the most familiar and certain of all things; by the power of their conviction He wrought in their minds; by His independence of His own time and nation, while yet He adjusted Himself to the needs and limitations of His people. As a courageous wrestler with evil, physical and moral, He brought God and God's help into the very midst of mortal struggle. As a willing sufferer, refusing to employ in His own behalf the limitless powers He invoked for others' good. He made a profounder revelation of His divine character, and by His death and resurrection He showed Himself the Savior from both sin and death—Lord and God in the conviction of His most doubting friend.

"The manifestation of Christ goes on through the centuries, and is the vital element in the moral and spiritual life of today. To our age of scientific thought, Christ reveals Himself as the embodied presence of the God who is the meaning and life of science. To an age of struggle, which with a voice like a clap of thunder has dissolved castles and thrones and is wrestling with all questions of rights, Christ reveals Himself as the universal brother, self-dedicated to human need. In an age of unsatisfied aspiration, Christ reveals Himself as the message and pledge of victorious faith, which can appropriate to itself this world and the world to come. 'Back to Christ' is a favorite watchword nowadays; but forward with Christ in the practical needs and duties of citizenship and humanity, is better."

Mr. Adams is the valedictorian and Miss Mabel Nichols, the salutatorian. The music was the best ever known for the baccalaureate service and included Gounod's "Domine," Gounod's Sanctus, "Light," from Mendelssohn's "Fest Song," and "O, Gladsome Light," from Sullivan's "Golden Legend." Prof. Allen played the organ and both the men's and ladies' chorus participated.

and the college gold will flutter from its top, as well as from the top of the buildings.

The seniors spent most of the week at Brown's lake, near Burlington. Prof. E. G. Smith addressed the High school seniors at Mazomanie last Sunday.

Jack Hollister, who has coached the college players for the past two months, has gone east to play ball with a professional club this summer. He was given a hearty send off by the college team.

The baseball record of the college this year is as follows:

GAMES WON.
Northwestern at Beloit, 19 to 13.
Beloit at Madison, 5 to 3.
Beloit at Northwestern, 4 to 3.
Fergus at Beloit, 6 to 2.
Illinois at Beloit, 6 to 0.
Beloit at Ann Arbor, 4 to 1.

This gives Beloit a clean title to the Western college championship.

Mrs. Barnard Thanks MRS. PINKHAM FOR HEALTH.

[LETTER TO MRS. PINKHAM NO. 18,992]

"DEAR FRIEND—I feel it my duty to express my gratitude and thanks to you for what your medicine has done for me. I was very miserable and losing flesh very fast, had bladder trouble, fluttering pains about the heart and would get so dizzy and suffered with painful menstruation. I was reading in a paper about Lydia E. Pinkham's Vegetable Compound, so I wrote to you and after taking two bottles I felt like a new person. Your Vegetable Compound has entirely cured me and I cannot praise it enough."—Mrs. J. O. BARNARD, MILLTOWN, WASHINGTON CO., ME.

An Iowa Woman's Convincing Statement.

"I tried three doctors, and the last one said nothing but an operation would help me. My trouble was profuse flowing; sometimes I would think I would flow to death. I was so weak that the least work would tire me. Reading of so many being cured by your medicine, I made up my mind to write to you for advice, and I am so glad that I did. I took Lydia E. Pinkham's Vegetable Compound and Liver Pills and followed your directions, and am now well and strong. I shall recommend your medicine to all, or it saved my life."—Miss A. P. Box 21 Anson, Iowa.

EXPORTS SHOW A DECREASE.

Figures for the Year Are Below Those of 1898.

STILL VERY SATISFACTORY.

Total Is Certain to Be Very Much in Excess of Any Other Year Except the Last—Trade Influenced by the Good Crops Throughout the World.

Washington, June 19.—Good crops in all the world in the years 1898-99 will probably make our export figures for the fiscal year about to end a few million dollars less than those of the banner year—1898. The figures covering the exports during the eleven months ended with May, which have been received by the treasury bureau of statistics, indicate that during the eleven months the total exports are about \$6,000,000 less than those of the corresponding months of the preceding year, and it is quite probable that the total for the full year will be slightly below those of the great and unprecedented year 1898. That they will be much in excess of any other year, however, is equally apparent. For the eleven months of the year 1899 the total exports are \$1,130,629,572, while in no earlier year except 1898 did the total exports of the eleven months reach the billion-dollar line.

The following table shows the total exports from the United States in each year from 1889 to 1899 in the eleven months ended with May: 1889, \$694,133,804; 1890, \$804,717,334; 1891, \$826,886,076; 1892, \$965,339,811; 1893, \$782,218,625; 1894, \$834,676,085; 1895, \$752,569,335; 1896, \$815,901,067; 1897, \$977,800,522; 1898, \$1,136,503,607; 1899, \$1,130,629,572.

Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, the shiftless fellow will wait until necessity compels it and then ruin his best horse going for a doctor and have a big doctor bill to pay, besides; one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer while he is getting poorer. COURT DISCHARGES DILLON AND DIXON

ARQUETTE HELD FOR TRIAL ON CHARGE OF ARSON.

In Default of \$2000 Bail He Was Remanded to Jail—Examination Has Attracted Wide Attention on Account of the Prominence of the Interested Parties.

Anthony Dixon and Thomas Dillon who were arrested on the charge of arson by the burning of their training stables at the fair grounds in this city on the night of April 8, and who have stood examination in the municipal court, were discharged this morning.

John Arquette, of this city, who was arrested on the same charge, was held for trial on July 6 at 10 o'clock and in default of \$2,000 bail was remanded to jail.

Thus ends one of the most interesting examinations ever held in the Rock county municipal court.

At 10 o'clock this morning all three defendants appeared in court to hear Judge Fifield's decision.

Arquette was the first to enter the court room and by his side walked his three little daughters the oldest being but twelve years of age.

Attorney Sutherland, in behalf of Dillon and Dixon, waived making a plea, but when the court asked Arquette if he had anything to say, he was to the front in a very short space of time.

The plea that he made clearly demonstrated the fact that Arquette is well posted in law.

He started from the beginning of the case, and not once did he wander away from the good points that favored him at every turn.

He did not deny having a hand in the affair, but stated that Dixon was with him, and he set fire to the structure.

Arquette also stated that Dillon and Dixon's attorneys had tried to bribe him, by not having him go on the stand and tell all he knew.

While making his plea, Arquette talked so loud that he could be heard a block away, and the crying of his oldest child made a pitiful scene.

When Arquette finished, Judge Fifield announced his decision, holding him for trial at 10 o'clock the morning of July 6, in bail of \$2,000.

Dillon and Dixon were then discharged for lack of sufficient evidence.

During the examination evidence clearly showed that some of the witnesses who testified for Dillon and Dixon failed to have their stories meet.

In the proof of loss that was filed to the insurance companies it was shown that certain articles destroyed in the flames had been listed too high.

Dillon, Dixon and Arquette were arrested on the charge of arson on complaint sworn out by the interested fire insurance companies, claiming fraud.

The Niagara Insurance Company, of New York, had \$500 insurance on the stable, while \$1,500 was carried on the contents in the Phoenix Insurance Company, of Brooklyn.

WISCONSIN WINS IN TENNIS

Defeated Beloit in Both Singles and Doubles in the Tournament.

The intercollegiate tournament took place at Beloit Saturday between Wisconsin and Beloit, Wisconsin winning both singles and doubles. In the singles in the morning Harrison represented Beloit and Crosby Wisconsin. Crosby won three sets in succession, having to fight hard for the first two, the score being 7-5 and 8-6, but captured the third rather easily, as Harrison got discouraged after losing two sets. The score was 6-4. In the afternoon Crosby and Bege won from Merrill and Wright in doubles, 6-3, 4-6, 6-1. The score was more evenly divided, but the playing was not as hard as in the singles.

Church Store.

The latest scheme of Calvary Episcopal Church, New York City, which already manages a woodyard, lodging house and restaurant, all self-supporting, is to open a shop for the sale of dry goods to the poor on the installment plan. A reasonable price will be charged for the goods, but it will be far below that asked in other installment stores. A Philadelphia church made a great success of such a shop some years ago. It is still a source of gain to the poor and profit to the church funds.

SELECT SITE FOR FREEPORT

Government Decides to Buy Instead of Condemning Property.

The following, which may be an eye opener to Bower City residents in the way Uncle Samuel selects postoffice sites, is taken from the Rockford Register Gazette:

"The treasury department has concluded to buy a postoffice site in Freeport instead of condemning one. It was decided several days ago to condemn a site offered by Jacob Klein because the price he named was considered much too high, but the department, concluded today to accept the offer of W. H. J. Stratton of a site on the northeast corner of Chicago and Exchange streets for \$17,500. The department also selected the site for the federal building in Joliet. It accepted the property on the northeast corner of Scott and Clinton streets, offered by George H. and Edwin S. Munroe, agents, for \$15,000."

FOUR HUNDRED AND FIFTY SIGN PLEDGE

TEMPERANCE WORKERS HERE ARE ACTIVE.

Many Join the Ranks of Blue Ribboners Since Francis Murphy Left Janesville—Figures Given Out Yesterday By Al Smith—Knights of the Grip Enroll Names.

Since Francis Murphy, the temperance advocate, left Janesville, there have been four hundred and fifty men here who have signed the temperance pledge.

At the Murphy League meeting held yesterday afternoon these interesting figures were given out by Al Smith, of this city.

In the course of his remarks Mr. Smith stated that not a day passed but that some men made application to sign.

Many of these men are today what some would call boys, for they have just entered manhood and for them to take the pledge at this age means a good deal in the welfare of mankind.

Several traveling men who have happened to be in the city on Sunday, but who are residents of other cities, have signed as have several farmers residing near the city.

At the meeting yesterday afternoon President James Mills presided, there being about seventy-five present.

Among the speakers were Rev. Robert C. Denison, Rev. W. W. Woodside, Rev. W. A. Hall, of this city, and Prof. Whitcomb, of Evansville.

Their remarks were to the point on the temperance question and were most interesting.

At Columbia hall on July 16, a rousing meeting will be held and an excellent program will be presented.

Insurance Against Adverse Verdicts.

Lloyd's underwriters are now doing a new form of insurance. A litigant in the supreme court, who is an appellant or respondent in an appeal from the verdict to the court of appeal, can insure against an adverse decision. The rate of premium depends on the legal reputation of the judge whose decision is questioned, and ranged from 30 per cent, in the case of a judge who was appointed solely for political services and is a bad lawyer, to 10 per cent, in the case of Lord Chief Justice Russell, who has the smallest percentage of reversals since his appointment. There is a fixed rate for every supreme court judge, based on information supplied by leading lawyers practicing before him.

EXPLOSION INJURES MANY.

Powder Bursts at Omaha Fire—Damage Nearly a Quarter Million.

Omaha, Neb., June 19.—At midnight Saturday night, flames were discovered bursting from the roof of the five-story brick building at Ninth and Jones streets, occupied by the wholesale grocery firm of Allen Bros. Before the fire could be controlled the loss had amounted to \$200,000 on the stock and \$40,000 on the building. Both building and stock were fully covered by insurance. On the pavement below the burning building were two large cases of powder. One of these was removed safely, the other exploded, the cans of powder scattering among the falling fire brands. A burning splinter fell from the fifth floor and pierced one of the cans. It exploded, and the concussion exploded the other cans.

The following were burned, the first fatally, the others seriously: T. J. Ruane, Lieut. J. Sullivan, Frank Hardy, M. Bird, J. Hoffman, Capt. Dineen, all firemen, and H. Redell, J. Ormsby, Kotzki, spectators.

Jeffries and Sharkey Next.

New York, June 19.—Jim Jeffries, the new champion heavy weight, will meet Tom Sharkey in his first battle to defend his newly acquired title. Tom O'Rourke for Sharkey and William Brady for Jeffries met Saturday and verbally agreed for their men to fight twenty-five rounds before the club offering the largest purse, the contest to take place about Oct. 23. The winner of the battle will take the entire purse and bids must all be in by Sept. 1, accompanied with a certified check of \$2,500 to show good faith. Brady, on behalf of the Coney Island Sporting club, of which he is a member and under whose auspices Jeffries and Sharkey met, has offered a \$50,000 purse for the battle. In the meantime if Mike Morrissey beats or draws with Peter Maher tonight, Jeffries may meet him in a contest at Denver July 31. Jeffries will agree to stop Morrissey in four rounds or forfeit the entire purse.

More Victims of the Cyclone.

New Richmond, Wis., June 19.—Reports brought here show that about nine persons heretofore unheard of were killed by Monday's storm. The dead are families of farmers living along the road between New Richmond and Burkhart. About 200 farmhouses and adjoining buildings along nine miles of that road are more or less wrecked. Three members of G. Lacey's family are reported as among the killed, also three members of a family named Ellis, also Mrs. J. M. Hurd and two or three others.

Gov. Scofield Appeals for More Aid for New Richmond Sufferers.

Milwaukee, Wis., June 19.—Gov. Scofield came from Madison Saturday to confer with Milwaukee business men and place before them the extreme necessity of the cyclone sufferers in and about New Richmond, and the desirability of greatly increasing the relief fund. The governor said in discussing the calamity:

"It will take many thousands of dollars to place the people of New Richmond on their feet again. They have lost everything and are destitute of all that makes even existence possible. Money is what is needed most. Large quantities of provisions are being sent from the near-by cities and towns, but building material will have to be purchased and mechanics will have to be paid in order to rebuild, all of which will take money."

"As the city is in the center of a lumbering section material can be had there much cheaper than the cost of shipping it from other places. With the necessary cash on hand to pay for it, the local committee can cheaply purchase a stock of lumber."

"The terrible picture of desolation shown in New Richmond has caused the outlying country to be forgotten to a great extent. Along the track of the cyclone at least twenty-five families have been left destitute. Wherever the storm touched it left desolation. Farmers in the track had all their buildings wiped out. We have given these sufferers food and such shelter as we can, but much more will have to be done for them."

Prospect for a Long Strike.

Terre Haute, Ind., June 19.—State Secretary Kennedy of the Indiana United Mine Workers of America has just returned from the southern Indiana field, where a strike has been in progress for some time. He says that the miners have won their point in securing the adoption of the regulation scale, but that the operators absolutely refuse to recognize the union. The miners are thoroughly organized and will make a long and bitter fight. Mr. Kennedy says he cannot predict when the trouble will be ended, but that the miners will remain out until their demands are acceded to.

Germany's Attitude Regretted.

The Hague, June 19.—The greatest disappointment is generally manifested at Germany's disinclination to consent to the establishment of a tribunal of arbitration. The attitude of the Kaiser's representatives is the subject of unfavorable comment everywhere. Le Petit Bleu of Brussels says that unless Germany yields on this point she will have made the conference a farce.

Discover a Headless Body.

Fountain City, Wis., June 19.—The body of an unknown man was found in the marsh two miles south of the city. It was devoid of clothing and the head was missing. Although a thorough search has been made for the head and clothing they have not been found. There is a suspicion of foul play, and the authorities are making an investigation.

Imp Wins the Suburban.

New York, June 19.—For the first time in its history a mare won the great Suburban handicap at Sheepshead Bay Saturday, and that in record time, 2:05 4-5. Harnes & Brossman's Imp was under the wire first by two lengths and set aside the mark of 2:06 1-5 established by Ramapo in 1894.

Strikers Will Stand Firm.

Buffalo, N. Y., June 19.—Nothing developed Sunday affecting the dock situation. The freight handlers held a largely attended meeting, and those present exhibited a determination to stay out until the railways agree to pay them 20 cents an hour for overtime. They expect the old dock workers to stand by them.

Fund for Cyclone Sufferers.

Eau Claire, Wis., June 19.—At a meeting of the leading citizens Sunday, Mayor Douglas, who presided, directed the secretary to wire Gov. Scofield a recommendation that O. N. Ingram be a member of the state committee of five to receive and disburse funds for the cyclone sufferers. Seebury Channing of St. Paul and Chairman O. W. Mosher of the New Richmond committee were present. About \$50,000 has already been raised in Wisconsin and Minnesota, and Messrs. Channing and Mosher say \$500,000 would not be too much, as the state committee's work is to include the whole cyclone belt in this state.

Yellow Fever in Mexico.

Oaxaca, Mexico, June 19.—Official advices have been received here of the appearance of yellow fever in its most virulent form in the city of Tehuantepec and other places on the isthmus of Tehuantepec. The epidemic now extends along the coast from Vera Cruz to the Guatemalan border, and hundreds of deaths have already occurred. In the city of Vera Cruz there are over 500 cases, and the epidemic is spreading there rapidly.

Girard Is Burned.

Erie, Pa., June 19.—The town of Girard, famous as Dan Rice's show town, was visited last night by a serious fire which started in E. L. Rosier's laundry. Fred Reiker's residence and bakery and the residences of Robert Strahl, Theodore Ely and William Meyers were soon destroyed. The loss will exceed \$25,000.

NEW USE FOR LIVE MODELS

Now Furnish the Designs for Up-to-Date Advertising.

Reproductions of photographs from live models are superseding the designs of draughtsmen in certain kinds of advertising. This change may come from the necessity for greater accuracy or in response to a public demand. It is noticeable that the male models employed for this purpose exhibit far better physical development than those of the other sex. There is one picture in particular used to call attention to an athletic device, in which a man's nude back, evidently from an untouched photographic negative, shows the physical perfection of an antique. A similar presentation of the back of a modern woman would reveal emphatically the superiority of the male figure. To exhibit the back of a modern woman with the same frankness would require considerable retouching of the photographic negative to make it presentable. The truth of the matter is that the modern female figure has been so abused by the exigencies of fashion, the repression of lines here or their exaggeration there, that it has become nothing more than an artificial construction upon which to drape clothing. That is exemplified in those advertisements in which female models are employed to display knit under garments, as compared to those that exhibit the

and form of corsets, gowns, etc. The lines of the first, which are frankly displayed, suggest anything but grace and harmony, while those models used as a framework upon which to hang garments convey the impression of suppleness and graceful outline. French and English technical journals use this form of publicity as much as we do, but they give no evidence that the foreign type of female figure is in any way superior to ours.—New York Sun.

Preserving Rubber Trees in Congo.

The government of the Congo Free State, with the object of preventing the threatened destruction of the India rubber trees in that country, has promulgated a decree by which it is provided that for every ton of rubber yielded annually there shall be planted not less than 150 trees. A bureau of control of rubber forests is created and is charged with the enforcement of the decree.

Care and Travelling.

The czar is not less careful of his life than his predecessors, but he adopts different methods for safeguarding himself. Instead of having three trains ready when he is going on a journey and leaving the anarchists to guess which train is conveying him, as his father did, he simply allows no one to know his plans. The route is published, but he never keeps it.
